Technical Skills

- TypeScript and JavaScript
- Next.js and React
- Node.js and Express
- Tailwind CSS
- SQL
- Docker
- Git

Personal Projects

Job Search Web Application

- Developed a dynamic job search app that queries Reed's API with custom user searches and displays open positions across the UK.
- Built the full-stack application using TypeScript and Tailwind CSS in Next.js.

Task Management Web Application

- Developed a task management app that enables users to log in, create, edit, prioritise, set deadlines, and delete their tasks.
- Built the full-stack application with a React frontend using TypeScript and Tailwind CSS, a Node.js and Express backend with JWT authentication, and a PostgreSQL database running in a Docker container during development.
